PRODUCT GUIDANCE SHEET

BRAKES URINE NEUTRALISER

A quick action surface urine neutraliser specifically designed to encapsulate and destroy foul smells. Use to treat urine smells in residential care homes, bars, washrooms, hotel rooms and other accommodation/public areas where stale urine odours are prevalent. Contains a long lasting residual lemon fragrance.

Product Name: BRAKES URINE NEUTRALISER
Description: Ready to use urine odour neutraliser
Pack Size(s): 3x750ml
Pallet Size(s): 200
Product Code(s): A84796

HOW TO USE

Brakes Urine Neutraliser is used directly from the bottle as a ready to go solution and requires no dilution with water.

- A fast action surface urine neutraliser containing a long lasting residual fragrance specifically designed to encapsulate and destroy foul smells from the surrounding air/soft furnishings.
- It contains an encapsulating complex whereby mal-odour molecules are bound together to freshen stale/stagnant enclosed air spaces and surface contamination. Treats urine smells in residential care homes, toilets, nappy bins, washrooms and areas where stale urine/faecal mal-odours may be prevalent.
- Using the trigger bottle atomiser, spray directly onto the contaminated hard floor/surface or carpet area. If on carpet, blot up with a clean sponge, mop or paper towel and allow to air dry.
- Where there is heavy urine contamination, clean first with a carpet shampoo via a hot water extraction machine.
- **Caution:** Pre-test material in an unobtrusive area for colour fastness.

SAFETY ADVICE

Not classified as hazardous, however we advise that normal cleaning safety practises are adopted. Wear rubber gloves when handling and avoid contact with eyes. In case of contact with eyes, rinse immediately with plenty of water and seek medical attention if irritation persists.

For further detailed information on this product please refer to the Safety Data Sheet.

FOR PROFESSIONAL USE ONLY

COSHH STATEMENT

COSHH is a law that requires all employers to take steps to control substances (chemicals) that may cause harm to employees, contractors and visitors to the workplace. Every work environment will be different in terms of the hazardous chemicals that are present, and how these are used, and individual assessments may be necessary to consider how chemicals can be handled and stored safely, in addition to ensuring that appropriate PPE and training is provided for employees. Product SDS and Product Guidance Sheets are intended to help when carrying out a COSHH assessment, however if further advice is needed with regard to specific issues in your work environment we are happy to provide advice. **E-Mail Technical:** technical.solutions@rpadam.co.uk
