PRODUCT GUIDANCE SHEET

BRAKES OVEN & GRILL FOAM CLEANER

A power blend of caustic and special wetting agents that rapidly penetrate to emulsify oils and fats and quickly releases baked on grease deposits and carbon from fat fryer surrounds, ovens, grills and other stainless steel catering equipment.

Product Name: BRAKES OVEN & GRILL FOAM CLEANER
Description: Ready to use heavy duty foaming oven and grill cleaner/carbon remover
Pack Size(s): 3x750ml
Pallet Size(s): 200
Product Code(s): A88401

HOW TO USE

Brakes Oven & Grill Foam Cleaner is used directly from the bottle as a ready to go solution and requires no dilution with water. It has a foaming trigger spray to help cling to vertical surfaces and is suitable on all stainless steel catering equipment. Especially used for de-carbonising ovens, grills, hot plates and fat fryers, it is critical for commercial/retail catering applications

Wearing eye protection and gloves heat the surface to 60°C then turn off the heat. Spray onto surface to be cleaned (avoid breathing fumes).

Leave for 15 minutes, spray again and agitate stubborn deposits with an abrasive pad; then rinse surfaces thoroughly with clean water.

For best results the surface being cleaned should be warming up or cooling down prior to using the oven cleaner. The heat will break up and soften the carbon and will make the cleaning task easier. Remember heat is part of the cleaning equation along with mechanical and chemical energy.

Caution:

In all cases **DO NOT USE** this products on aluminium or ceramic hobs as the products will damage the surface.

SAFETY ADVICE

DANGER Causes severe skin burns and eye damage. May be corrosive to metals. Wear protective gloves, protective clothing and eye or face protection. IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor. Absorb spillage to prevent material damage.

For further detailed information on this product please refer to the Safety Data Sheet.

FOR PROFESSIONAL USE ONLY

COSHH STATEMENT

COSHH is a law that requires all employers to take steps to control substances (chemicals) that may cause harm to employees, contractors and visitors to the workplace. Every work environment will be different in terms of the hazardous chemicals that are present, and how these are used, and individual assessments may be necessary to consider how chemicals can be handled and stored safely, in addition to ensuring that appropriate PPE and training is provided for employees. Product SDS and Product Guidance Sheets are intended to help when carrying out a COSHH assessment, however if further advice is needed with regard to specific issues in your work environment we are happy to provide advice. **E-Mail Technical:** technical.solutions@rpadam.co.uk
