PRODUCT GUIDANCE SHEET

BRAKES COFFEE & TANNIN REMOVER

A soluble free flowing chlorinated powder developed for the quick and safe removal of tannin stains from crockery, plastics, stainless steel tea urns, coffee pots and vending machines and helps remove water spotting from cutlery.

Product Name: BRAKES COFFEE & TANNIN REMOVER
Description: Manually fed tannin stain remover powder
Pack Size(s): 1x10kg
Pallet Size(s): 42
Product Code(s): A16084

HOW TO USE

This product should usually be sited in the stillroom or in an area where de-staining is done. For use on all crockery, plastics, melamine, stainless steel urns, coffee pots and can also be used to remove marks on most plastic chopping boards.

Using the scoop provided dissolve 2–4 scoops (1 scoop = 50g) of destaining powder into a sink of HOT water and allow items to soak for approximately 20-30 minutes. For heavy tannin deposits, soak utensils overnight. Rinse items thoroughly after de-staining.

ALL items soaked in de-staining powder MUST be rewashed through the dishwasher before returning them to service.

Caution:

Brakes Coffee & Tannin Remover is not recommended for glass items as it can over time etch the glass leaving it with a milky-white finish.

SAFETY ADVICE

Classified as Irritant. Irritating to eyes and skin. Contact with acid liberates toxic gas. In use solutions are not classified as hazardous, however we advise that normal hygiene practices are adopted. Wear rubber gloves when using solutions and avoid contact with eyes. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice if irritation occurs. **For detailed advice on safe handling and storage of the concentrated product refer to the product Safety Data Sheet.**

Keep out of reach of children. FOR INDUSTRIAL & INSTITUTIONAL USE ONLY.

COSHH STATEMENT

COSHH is a law that requires all employers to take steps to control substances (chemicals) that may cause harm to employees, contractors and visitors to the workplace. Every work environment will be different in terms of the hazardous chemicals that are present, and how these are used, and individual assessments may be necessary to consider how chemicals can be handled and stored safely, in addition to ensuring that appropriate PPE and training is provided for employees. Product MSDS and Product Guidance Sheets are intended to help when carrying out a COSHH assessment, however if further advice is needed with regard to specific issues in your work environment we are happy to provide advice. **E-Mail Technical:** technical.solutions@rpadam.co.uk
