## PRODUCT GUIDANCE SHEET

### BRAKES DETERGENT SANITISING POWDER

A free-flowing, water soluble powder that can be used in a wide range of applications where hygiene considerations are paramount. This versatile cleaner/disinfectant has many uses including terminal sanitising of food preparation surfaces, disinfecting action during a viral outbreak and fast acting tannin removal of tea/coffee cups/pots in housekeeping applications.

Product Name: BRAKES DETERGENT SANITISING POWDER  
Description: Chlorine disinfectant and destaining powder  
Pack Size(s): 1x10kg  
Pallet Size(s): On Request  
Product Code(s): A 16090

### HOW TO USE

#### Tannin Removal (Housekeeping):

- Hand dosed using the 50g scoop provided.
- Allow coffee cups and pots to soak for 10 minutes before rinsing thoroughly with clean water before re-using.
- This task should be done first to allow items to soak whilst the rest of the bedroom and bathroom are cleaned.
- **Caution: Never use in the toilet bowl.**

#### Terminal 2nd Stage Disinfection:

- Compliant to BS EN 1276: Dilution of 10g per 1lt of water and a contact time of 5minutes.
- For terminal disinfection dissolve 150g (3 scoops) of the powder per 10lts of water into a bucket or other appropriate vessel and allow items to soak for 10minutes.
- Can also be wiped or mopped onto pre-cleaned surfaces, allowing 5 to 10 minutes contact time.
- Always rinse after with clean water. Prepare fresh solutions every 2-3 hours to ensure the disinfectant solution remains effective.
- For cutting boards, sprinkle onto a moist surface and wipe clean before rinsing thoroughly with fresh water.

- It is good practice to mark all spray bottles with the product name and to prepare a fresh solution every 2-3 hours to ensure the sanitiser solution remains effective.

**Caution: Solution may bleach fabrics.**

## **SAFETY ADVICE**

**DANGER** Causes serious eye irritation. Toxic to aquatic life with long lasting effects. Avoid release to the environment. Wear protective gloves and eye protection. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

**For further detailed information on this product please refer to the Safety Data Sheet.**

**FOR PROFESSIONAL USE ONLY**

### **COSHH STATEMENT**

COSHH is a law that requires all employers to take steps to control substances (chemicals) that may cause harm to employees, contractors and visitors to the workplace. Every work environment will be different in terms of the hazardous chemicals that are present, and how these are used, and individual assessments may be necessary to consider how chemicals can be handled and stored safely, in addition to ensuring that appropriate PPE and training is provided for employees. Product SDS and Product Guidance Sheets are intended to help when carrying out a COSHH assessment, however if further advice is needed with regard to specific issues in your work environment we are happy to provide advice. **E-Mail Technical:** [technical.solutions@rpadam.co.uk](mailto:technical.solutions@rpadam.co.uk)
