Product Code(s):	A84788
Product Name:	BRAKES ALCOHOL HAND GEL POUCH DISPENSER
Description:	Hand sanitiser dispenser
Pack Size(s):	Each
Product Code(s):	A84806

HOW TO USE

Brakes Alcohol Gel is used directly from the pouch soap dispenser with the red teardrop. Always make sure that dispensers are always filled with gel. Remember - Do not rewash hands immediately after applying alcohol gel.

Good personal hygiene standards are a critical area of cleaning and disinfection within the kitchen. Most food poisoning outbreaks occur not because of infected produce or poor temperature controls, but due to poor personal hygiene by food handlers.

Important Note: Always wash hands following handling raw food, refuse or visiting the toilet.

- Pressing the button on the dispenser releases a small amount into the palm of the hand.
- Rub the disinfectant gel into hands especially in between your fingers and finger nails properly.
- Allow to air dry. Do not rewash hands immediately after applying alcohol gel.

Keep Dispensers Hygienically Clean:

As a frequently touched piece of equipment, care should be taken to ensure that the soap dispensers are kept hygienically clean and that residues of soap are periodically wiped from surrounds of the dispenser and the vending nozzle.

SAFETY ADVICE

DANGER Highly flammable liquid and vapour. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep container tightly closed. In case of fire use water, water spray, water jet, carbon dioxide, sand, foam, alcohol resistant foam or chemical powder for extinction. Store in a well ventilated place. Keep Cool.

For further detailed information on this product please refer to the Safety Data Sheet.

FOR PROFESSIONAL USE ONLY

COSHH STATEMENT

COSHH is a law that requires all employers to take steps to control substances (chemicals) that may cause harm to employees, contractors and visitors to the workplace. Every work environment will be different in terms of the hazardous chemicals that are present, and how these are used, and individual assessments may be necessary to consider how chemicals can be handled and stored safely, in addition to ensuring that appropriate PPE and training is provided for employees. Product SDS and Product Guidance Sheets are intended to help when carrying out a COSHH assessment, however if further advice is needed with regard to specific issues in your work environment we are happy to provide advice. **E-Mail Technical:** technical.solutions@rpadam.co.uk
