PRODUCT GUIDANCE SHEET

BRAKES 5 IN 1 DISHWASHER TABLETS

A 5-in-1 dishwasher tablet formulated to give pristine sparkling results on all crockery, cutlery and glassware items. Containing a powerful enzymatic degreaser the results are superb even on the shortest of wash cycle. A built-in rinse aid speeds up the drying of washed items. Each tablet is complete with a lemon fragrance to leave a clean, fresh smell in the dishwasher after every wash.

Product Name: BRAKES 5 IN 1 DISHWASHER TABLETS
Description: 5 in 1 concentrated dishwasher tablets
Pack Size(s): 1x160 tablets
Pallet Size(s): 160
Product Code(s): A104867

HOW TO USE

Highly effective dishwasher tablets for use in domestic sized commercial dishwashers/glass washers. Designed to remove the heaviest organic soils from crockery, cutlery and glassware. For optimum results, ensure your dishwasher wash temperature is above 50°C. The formulation is chlorine-free so is suitable for locations with septic tanks.

1. Remove food scraps and rinse heavily soiled items before loading.
2. Use 1 tablet per wash cycle.
3. Unwrap the tablet from its individually sealed packet and remove the tablet, taking care to avoid skin contact.
4. Place 1 tablet into the dishwasher dispenser following the manufacturer's instructions.
5. Each tablet gives the exact controlled dose per wash.
6. Do not put tablet in the cutlery basket.

If the items are very greasy it is recommended that the tablet is placed in the bottom of the wash tank near to the filter so as to maximise the effectiveness of the product. Then simply select the appropriate programme and switch on your dishwasher.

Caution:

Certain items are not suitable for cleaning in automatic dishwashers – these include some lead crystal glasses and decorated glassware, antique and hand painted porcelain, coloured and anodised aluminium, items with gold or other precious metal decorations, some unglazed items or where the decoration is on top of the glaze. If in doubt, consult manufacturer's recommendations or test wash on one item first.

SAFETY ADVICE

WARNING Causes serious eye irritation. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Wash hands thoroughly after handling. If skin irritation occurs: Get medical advice/attention. IF SWALLOWED: Call a POISON Center or doctor if you feel unwell. If medical advice is needed, have product container or label at hand. Keep out of reach of children.

For further detailed information on this product please refer to the Safety Data Sheet.

FOR PROFESSIONAL USE ONLY

COSHH STATEMENT

COSHH is a law that requires all employers to take steps to control substances (chemicals) that may cause harm to employees, contractors and visitors to the workplace. Every work environment will be different in terms of the hazardous chemicals that are present, and how these are used, and individual assessments may be necessary to consider how chemicals can be handled and stored safely, in addition to ensuring that appropriate PPE and training is provided for employees. Product SDS and Product Guidance Sheets are intended to help when carrying out a COSHH assessment, however if further advice is needed with regard to specific issues in your work environment we are happy to provide advice. **E-Mail Technical:** technical.solutions@rpadam.co.uk
