

Dear Customer,

We have some important news to share with you, which will affect some of the uncoated fish and seafood range that you buy from Brakes including this product.

As a result of recent updates to EU industry legislation we will be making a gradual transition into only declaring nett weights (without the protective ice glaze) on our product packaging, in our brochures and on our website.

As we make the transition and to help to make our range easier to understand, we will add new descriptive names to our uncoated fish fillets which will appear alongside the new nett weights. These changes will, in time, be reflected across all of our uncoated whitefish range (cod, haddock, hake, hoki, Pollock, pangasius, plaice and lemon sole) and the full titles can be seen below.

OLD GROSS	NEW NETT	NEW DESCRIPTIVE NAME
85-110g	60-90g	Mini
110-140g	90-115g	Small
140-170g	115-140g	Midi
170-200g	140-170g	Medium
170-230g	140-200g	Medium/Large
190-240g	170-200g	Large
200-230g		
230-290g	200-250g	Extra Large
240-260g		
280-340g	250-300g	Jumbo

Whilst these changes to descriptions are important, they will make minimal impact to the actual products that you buy and hence you can be confident that you are continuing to purchase an industry leading, sustainable range of fish and seafood from Brakes.

Should you have any questions or require any further information please contact **fish&seafoodenquiries@brake.co.uk**

Yours Faithfully

The Brakes Fish & Seafood Team
